

PRESS RELEASE

Business up +5.30%

In line with forecasts

€ (millions)	2007	2006	Change
Cumulative turnover 2007 (1 January / 31 December)	70.95	67.36	+ 5.30%

2007 turnover in line with objectives

On 31 December 2007, the leader in the medicinal IT market, Pharmagest Inter@ctive, recorded a rise in turnover of 5.30% bringing it to €70.95 million compared to €67.36 million on 31 December 2006.

➤ **Steady business growth**

The group's business grew by nearly 9% during the 4th quarter of 2007, after 3.90% growth in the first half of the year, and an increase of 5.10% in Q3, thus bringing annual growth in line with the objective.

The second half of the year showed the benefit of the size of the order book on 30 June 2007. Hardware configuration sales basically followed the rate of Rentpharm® renewals.

In addition, the group's latest innovations (products and services) have been very popular (+70%) amongst customers keen to make the most of the loyalty benefits which are vital to pharmacists today.

➤ **Acquisition of Sabco: excellent performance**

In 2007, even though the subsidiary's figures are not significant at the consolidated level, they have exceeded our initial estimates; turnover is up 25% and the net profit has doubled.

➤ **Upturn in Laboratory business**

Turnover is very close to €2 million this year, a rise of nearly 20%.

This business, which is partly non-recurrent, mainly involves multi-annual contracts which allow us to have a clear business plan.

➤ **2007 objectives**

Even now, Pharmagest Inter@ctive expects to have an operating profit for 2007 between €11.80 and 12.20 million (compared to €11 million in 2006) and a group share of net income for 2007 of above €2.50 per share.

The Group's 2007 annual results will be published on 26 March 2008.

About Pharmagest Inter@ctive – CIP SA

The Pharmagest Inter@ctive - CIP SA Group is the leading French medicinal IT company, with a 43 % market share, 9800 customers and 600 employees. Since September 2007, the Group has also had a presence in Northern Europe with a 12% market share in Belgium and Luxembourg.

The favoured partner of pharmacists for over 20 years, Pharmagest Inter@ctive designs innovative computing solutions aimed at dispensing pharmacies, and is developing a high-potential E-Media E-Business aimed at laboratories.

The first Logiciel de Gestion à Portail Intégré (LGPI®), (Management Software with Integrated Portal), provides value for patients, pharmacists and laboratories, boosts sales, optimises purchases and enriches patient advice. It is also the first media with a permanent impact in dispensing pharmacies and enables laboratories to have direct communication with the pharmacist and his patients.
